

# Eli Lilly and Company

## Distance Learning Programs

Spring 2008

Eli Lilly and Company offers a variety of interactive distance learning experiences for K-12 students and organizations across the nation via the use of videoconferencing. Take advantage of these unique programs and learn from experts in the field of science or provide students the opportunity to explore various careers by participating in our interactive career panel discussions.

### About our Distance Learning Program

#### Where do I find your program information as well as how to enroll?

- To view current program information or to enroll in a program, please visit the [Center for Interactive Learning & Collaboration \(CILC\) website](http://www.cilc.org) at [www.cilc.org](http://www.cilc.org) (Location: Education Content > Content Provider Programs). All programs are scheduled and viewed through the Ameritech Advanced Video System (AAVS) Network. Participating sites outside of this network may also view programs.

#### Are there costs to your program?

- No, there is no program fee. However participating sites are responsible for their own line charges to connect.

#### Are your programs aligned with the educational standards?

- Yes - National and Indiana State Standards have been applied to Lilly's distance learning programs. For a more detailed description of our programs and the aligned standards, please refer to the CILC website.

Offerings designed to assist your students in career planning as well as learning more about the field of science.
